

Client Testimonials – Response to Redundancy, JHP Employability - Bath

When I lost my job in May, I went to Connexions and was advised to start the R2R employability course with JHP.

JHP have given me confidence in having interviews, and writing a presentable CV and covering letter, also I have been applying for jobs that I wouldn't have applied for before I joined JHP but now I have widened my job search and now apply for a wider variety of jobs.

Excellent new computers. Support offered when needed and when asked. I would recommend this service to others in the same situation.

I found that during my time at JHP I was able to improve skills needed for employers to even consider me such as key software commonly used in the workplace, updating my C.V, learning to apply for jobs properly and increasing my confidence in front of others.
